Barbara Webb, and Mr. Hall after this took Marian Stokes photo in the garden. Finished my interview with Mrs. Clark about 8 P.M., last part of interview in the presence of Miss and Mrs. Stokes. Mrs. Clark said that newspapers say Mrs. Hawkins saw Mrs. Mills carrying a small package up near the trade school. Mrs. Clark has been friendly on both sides and says that Mrs. Hall is innocent. Further that she never suspected any wrong between Hall and Eleanor, and certainly would have noticed it if such was the case. Also that the authorities have bungled things up from the start. Mrs. Clark's husband stated he could possibly advance four motives for the crime, jealousy, robbery, blackmail, or a mistake in identity. Learned that the caretaker of the Phillips farm was a man by the name of Galucci. Also informed that a Herbert Hanna of Lincoln Highway, known as Lincoln Gardens at the end of the city line saw bodies. Telephone 14 M.

October 17th, 1922 Mr. David at the Hall house and took Henry Stevens, Barbara, Mrs. Hall and Willie Stevens to District Attorney's office in an auto. Went to the Carpenter house for the purpose of questioning old Mrs. Mills did not find her, went back to the Hall's house and saw Louise Geist talking to reporters. Mrs. Vorhees and Mrs. H. Stevens returned from shopping after purchasing a hat. From there went to the Clark's house and did not find her home. From there I interviewed a Mr. Schlosser who is a letter carrier. Interviewed him at about 5:30 P.M., and in the conversation had with him he gave me the impression it was the father of a girl that Gorsaline escorted home, and they say he is a very prominent man that lives in Highland Park who saw the people that did the shooting and gave the story to the prosecutor and that the prosecutor is protecting the man. Mr. and Mrs. Schlosser speak very highly of Mrs. Hall and have explicit confidence that on September 14th, 1922 Mr. Hall was at their house for about fifteen minutes and left about 5:15 P.M. Mr. Hall's Mother was along.
